## Margo Network Expands Services with New Paybis Partnership

Lancaster, PA – Margo Network, a leading provider of Digital Currency Machines and Bitcoin ATMs, is proud to announce a strategic partnership with Paybis, a global cryptocurrency exchange platform. This collaboration expands Margo's service offerings, allowing customers to purchase Bitcoin and other cryptocurrencies directly from the Margo website using credit and debit cards.

### A New Era of Convenience

With this new partnership, Margo continues to deliver on its commitment to making cryptocurrency accessible and convenient for everyone. The new online purchase option, powered by Paybis, complements Margo's existing services, which include:

- **Cash Purchases at Digital Currency Machines and Bitcoin ATMs:** Customers can use cash to buy Bitcoin and other cryptocurrencies at Margo's network of kiosks.
- **Wire Transfers via Private Client Desk:** Margo offers a personalized, white glove service for digital asset transactions up to \$1,000,000 per day.
- **Buy Bitcoin Online with Credit Card or Debit Card:** The latest addition, facilitated by Paybis, enables customers to buy cryptocurrency online from a computer or mobile device using their preferred payment method. [www.margonetwork.com/buy](http://www.margonetwork.com/buy).

### Simple, Secure, and Flexible

This expansion underscores Margo's dedication to providing a seamless, secure, and flexible cryptocurrency purchasing experience. By integrating Paybis' trusted platform, Margo ensures that customers can transact with confidence, whether they are making a small purchase or managing larger investments.

"We are thrilled to partner with Paybis and introduce this new online payment option," said Austin Haller, CEO of Margo. "This initiative is another step forward in providing customers with the most comprehensive, secure and reliable access to digital assets in the cryptocurrency category."

### About Margo Network
